Figures of Averroes – Educational Materiale (French and Spanish studies of Islam)
By Ecole Normale Superiore (1988, after theory of the Encounter by Althusser is published along with Future Lasts Forever)

I. Le Primer – organisacione de le problematique (Althusser)

Problematique – le process de hablar – en Arabique

Le unitie de la palabras – como le Francaise – pero con fe.

Example – Porque no existía la fe, hace la fe.

II. French Simple Quran

Simplicities like – please be faithful, be polite.

III. Averroes acting out a Modern Prophet he claims will exist like a Indian Man

In fact there are many patterns in French simplicities – and it can just be elipses – like have faith, don’t forget your love.

IV. Published Locution

I – yes – would agree – about – many things.

It means just say yes, and talk about belief – French simplicities again.

Example – Do you want to meet?

Yes, I believe we should meet at a certain store, where we can talk about simple life and Quran

perhaps some more stuff like music.

Here it progresses along the lines of art and aesthetics.
